Accounts preparation

As well as being used to preparing tax returns, your accounts are a valuable source of financial information to help you identify strengths and weaknesses within your business and support your decision-making and forward planning.

Tax return service

There is no reason to pay more tax than you have to. A key priority for any business is to stay compliant with HM Revenue & Customs requirements. We work with clients including sole traders and limited companies to prepare tax returns and calculate their tax liabilities to meet HMRC deadlines.

Management accounts and information

Regular management accounts provide key financial information that allows you to monitor and improve your business performance. Following management account preparation, in a format to meet your requirements, we can act as an impartial sounding board to discuss your financial results and position.

Setting up in business

There are many ways to start up a business e.g. personally, with friends or family. We have years of experience helping start-up businesses with tax advice, registration processes and business structures.

Company formation

If you decide to trade as a limited company we can form a company for you. We can advise and ensure that the initial share capital is correctly set up most appropriately to ensure tax efficiency.

Company secretarial

Each year a limited company must file an Annual Return, showing details of directors, shareholders and key addresses and any changes in these details. It is important that these details are kept up to date and accurate. We are happy to deal with this administrative task for you.

Fee protection insurance

The likelihood of you, or your business, being investigated by the tax authorities is higher today than ever before. For a modest fee, we can provide Fee Protection Insurance to cover the potential costs.

Bookkeeping and VAT returns

For smaller businesses, we can take away the hassle of routine bookkeeping and VAT return preparation and submission, so that you can spend your time concentrating on running your business.

Payroll

Our payroll bureau relieves the burden of having to operate a regular payroll system. We provide a timely, accurate and flexible payroll service including payslips and e-filing under the new RTI rules.

Sage 50 software support and training

We can provide Sage 50 accounts and payroll software training that is tailored to your specific needs.

Fixed fees and on-going support

Most of our work is carried out on an agreed fixed fee basis and includes *ad-hoc* telephone support.

Reward scheme for existing clients

We always thank our clients for referring new prospects. We are currently offering a "thank you" present worth up to £50 for each referral which results in us taking on a new client.
